A
cAMP−dependent protein kinase type I−alpha regulatory subunit [Cleaved into: cAMP−dependent protein
Retrovirus−related Pol polyprotein
Dolichyl−diphosphooligosaccharide
Allene oxide synthase
Protein O−linked
TAF6−like RNA polymerase II p300/CBP
Alpha−1,3−mannosyl
Thrombospondin
Bifunctional purine biosynthesis protein
Dual specificity
SWI/SNF−related matrix−associated actin−dependent
UDP−N−acetylglucosamine
Acetylgalactosaminyl−O−glycosyl
Polyubiquitin−C [Cleaved into:
SWI/SNF−related matrix−associated
Structural maintenance of
TAF5−like RNA polymerase
Putative IQ motif
Membrane−associated
[Pyruvate dehydrogenase
Alpha−1,6−mannosyltransferase
SWI/SNF−related matrix−associated actin−dependent
Histone−lysine
Alpha−1,6−mannosyltransferase
N−acetylglucosaminyltransferase
Allene oxide synthase
Transient receptor
EGF−like repeat
